Personnel Policy (Including Whistleblower Protection):

Introduction

The Amsterdam Urban Renewal Agency is dedicated to fair and consistent treatment of all of its employees. This policy is intended to provide standard procedures for all of the employees. This is not a contract of employment. The Amsterdam Urban Renewal Agency reserves the right to change, interpret, withdraw or add to any of the policies, benefits, or terms and conditions of employment without prior notice to an employee. This policy supercedes all prior personnel policies of the Urban Renewal Agency.

Work Hours

The office of the Amsterdam Urban Renewal Agency will conform to the regular office hours of City Hall as closely as possible. The hours for full time staff will be from 8:00 a.m. to 4:00 p.m., with one hour off for lunch (or any such schedule as deemed by the Board). Part time staff will work a schedule that is established when the employee is hired.

Full-time Employees

An employee who occupies a full-time line item and regularly works 1,560 scheduled hours or more annually (average 30 hours per week) or the hours specified in the job description.

Part-time Employees

An employee who works less than 1,560 hours annually (average 30 hours per week) or the hours specified in the job description.

Since the Urban Renewal Agency serves the public, staff must assume the responsibility for covering the office and telephones during office hours. Accordingly, staff should make arrangements to stagger lunch hours, if necessary, to keep the office open to the public as much as possible.

On occasion, employees may be asked to work extra hours, particularly in the event of a project deadline or an evening meeting. Employees are expected to cooperate with these requests, and will take compensatory time off for the extra hour worked.

Overtime & Compensatory Time

As discussed above, there are times when employees may have to work overtime due to project deadlines, Board meetings, or other reasons. No employee is to incur overtime without prior knowledge and approval of the Executive Director of the Urban Renewal Agency. Compensatory time is to be taken in the same week that it is incurred, if possible.

Any overtime incurred by employees (in excess of 40 hours in one week) is to be compensated by the employee taking time off equal to 1 times the overtime hours worked. This compensatory time is to be taken in the week following the week that the overtime was incurred. Employees are not to work overtime with the expectation of being paid overtime, unless such overtime pay is authorized in writing by the Executive Director of the Agency prior to incurring the overtime.

Jury Duty Leave

Jury duty leave is granted with pay. The pay shall be the difference between the employee's average weekly salary over the past three (3) months and the payment for jury duty. An employee who is excused from jury duty or relieved for the day is required to return to work. To be eligible for payment, an employee must produce evidence of appearance for jury duty and verification of the jury duty payment from the court.

Time Sheets

Due to the fact that the Agency works entirely with public funds, and must be accountable to the public and to the various Agency funding sources, employees must fill out time sheets. These sheets must accurately reflect the hours worked by each employee and the specific projects worked on. Each day, every employee is expected to fill out the appropriate section of a weekly time sheet as designated by the Agency. Review of the time sheets will be undertaken by the Executive Director of the Agency, who will sign the time sheets upon such review.

Petty Cash Policy

The petty cash fund shall not exceed \$100. Petty cash is available to cover small, unexpected, and necessary expenses incurred by an employee or Board member for Agency purposes. Funds may be requested from the secretary, who records all withdrawals from the petty cash fund. The person who withdraws funds will be expected to promptly return cash and receipts totaling the amount of funds withdrawn, and is responsible and liable for the amount of funds withdrawn, until the cash and/or receipts are returned. Petty cash is to be managed on the imprest system, whereby the total amount of cash and receipts combined is always at a constant level.

Compensation Policy

Salaries for all employees is established on a case-by-case basis. Full-time employees will be compensated on an annual salary basis. Part-time employees will be compensated on an hourly basis. Raises will be considered on an annual basis at the time of a performance evaluation.

Sexual Harassment Policy

The Agency does not and will not condone sexual harassment, on any level. Sexual harassment affects both men and women, and may be in a variety of forms. Pursuant to guidelines issued by the Federal Equal Employment Opportunity Commission, the Agency is required to maintain a working environment for its employees that is free from sexual harassment.

Sexual harassment is defined as follows:

1. Submission to or rejection of such conduct by an individual is used as the basis for employment decisions;
2. Such conduct has the effect of unreasonably interfering with an individual's work performance or creating an intimidating or offensive working environment for other employees.

It is the responsibility of every member of management to insure that this policy is enforced strictly. This responsibility includes insuring that each employee is aware of the Agency's policy and that this facility is free from sexual conduct that causes, or reasonably could be considered to cause, an intimidating or offensive working environment. All employees are responsible to conduct themselves in ways that insure others are enabled to work in an atmosphere free from sexual harassment. An employee has the right and may feel it appropriate to inform the individual directly that they find their conduct personally offensive. Any incident of sexual harassment should be immediately reported to the Executive Director, who will immediately investigate the complaint. If substantiated, appropriate disciplinary action up to and including dismissal will be taken.

Performance Evaluation

A performance evaluation will be conducted on an annual basis to determine if any adjustments should be made regarding the position, job title, responsibilities, or salary of an employee. The performance evaluation will be made by the Executive Director of the Agency. In carrying out this review many factors in the employee's performance will be considered including overall performance, development of job skills, contribution to completion of goals of the Agency,

cooperation with other staff or Board members, effective use of time, problem solving abilities, and work habits.

As part of the performance evaluation, an evaluation session will be held between the Executive Director and the employee, and a written job performance evaluation will be provided to the employee. This evaluation will be maintained as part of the employee's personnel file.

Vacation Policy

Vacation time is earned by each full time employee based on the period of employment with the Agency.

1. In writing and are subject to approval by the Chairman,
2. Submitted at least two weeks before the start of the requested vacation period, and

Holidays falling within a vacation period are counted as holidays. Any vacation time granted for that day is credited to the employee, and is to be taken at another time.

Health insurance arrangements are to be made on a case by case basis at the time a person is hired, and will be negotiated as part of the employee's compensation package at the time of hiring. In the event of termination of employment, the Agency

It is understood that the manner in which an employee handles the termination will be reflected in any recommendation that the Agency gives to a future prospective employer.

2. All real estate acquired shall be purchased for a fair market price or a better price negotiated between the Agency and the seller. Under no circumstances will the Agency pay more than the appraised fair market value for any real estate acquisition. Such appraisal shall be undertaken by a qualified independent appraiser.

Policy Regarding Use of Discretionary Funds

The Office of the Attorney General determined that the expenditure of authority funds must relate directly to an enumerated power, duty or purpose of the authority. The funds of an authority may not be spent in support of the private or personal interests or to the benefit of directors, management or staff. Accordingly, the Authorities Budget Office recommends that all state and local authorities adopt written policies that specifically delineate the proper use of an authority's discretionary funds. This policy should address not only what constitutes a proper discretionary expenditure related to the mission and public purpose of the authority, but also address what would be considered an improper use of those funds.

For example, at the discretion of the board or management certain out-of-town business travel and travel-related expenses may be appropriate to advance the mission of an authority. While such an expense would be permissible under the authority's policy, the policy should also provide guidance as to reasonable amounts for such expenses and require that employees perform due diligence to obtain the lowest cost. The policy should also require prior approval of or authorization by an appropriate individual to ensure that such travel is reasonable and necessary. The policy should require documentation to justify the nature and purpose of such expenses, require the employee to provide receipts for expenses and provide dollar thresholds for what will be considered reasonable (such as amounts allowed by federal GSA guidelines for travel expenses including per diems, government lodging rates and amounts for meals and other incidental expenses).

Certain meal costs also may be incurred through participation in, or sponsorship of, activities integral to meeting the core public purpose of the authority. Similar to appropriate travel expenses, eligible meal costs must be properly documented and reasonable cost thresholds established.

At the same time, the policy should explicitly outline the types of expenses for which the board will not give approval. This section should specifically note the impropriety of purchases using authority cash or credit that are personal in nature, that would benefit one or more staff of the authority rather than benefit those dependent on the authority's services, or are not necessary to advance the mission of the authority.

Examples of inappropriate use of authority funds would include, but need not be limited to:

- Food, beverages, and other refreshments purchased for the personal use of directors, management or other employees, or by persons with whom the authority conducts business (unless prior authorization is received);
- Flowers and gifts for staff, directors or family members;

- Subsidized or free use of authority services for the personal use of current or former board members, staff, or family members of staff;
- Celebrations for special occasions that do not directly relate to the purpose of the authority, such as catering or decorations for summer picnics, office parties or holiday or retirement parties;
- Charitable contributions or sponsorships of events not associated with the authority's mission;
- Purchases of alcohol or tobacco products;
- Membership dues in professional organizations on behalf of employees;
- Renewal of professional licenses for staff;
- Personal use of authority vehicles, unless properly documented for tax purposes;
- Costs to purchase or mail holiday cards, invitations or expressions of sympathy to staff or families of authority staff; or
- Assignment of cell phones or vehicles to non-authority staff.

Absent specific statutory power, public authorities may not use public funds to purchase items considered personal expenses or that are intended to personally benefit an employee or director. Expenses such as those listed above do not advance a public purpose and should be considered personal in nature.

Conflict of Interest Policy

All Board Members and employees should be provided with this Conflict of Interest policy upon commencement of employment or appointment and required to acknowledge that they have read, understand and are in compliance with the terms of the policy.

Board members and employees should review on an ongoing basis circumstances that constitute a conflict of interest or the appearance of a conflict of interest, abide by this policy and seek guidance when necessary and appropriate. This policy is intended to supplement, but not replace, any applicable state and federal laws governing conflicts of interest applicable to public authorities.

Conflicts of Interest:

A conflict of interest is a situation in which the financial, familial, or personal interests of a director or employee come into actual or perceived conflict with their duties and responsibilities with the Authority.

Perceived conflicts of interest are situations where there is the appearance that a board member and/or employee can personally benefit from actions or decisions made in their official capacity, or where a board member or employee may be influenced to act in a manner that does not represent the best interests of the authority.

The perception of a conflict may occur if circumstances would suggest to a reasonable person that a board member may have a conflict. The appearance of a conflict and an actual conflict should be treated in the same manner for the purposes of this Policy.

Board members and employees must conduct themselves at all times in a manner that avoids any appearance that they can be improperly or unduly influenced, that they could be affected by the position of or relationship with any other party, or that they are acting in violation of their public trust. While it is not possible to describe or anticipate all the circumstances that might involve a conflict of interest, a conflict of interest typically arises whenever a director or employee has or will have:

- A financial or personal interest in any person, firm, corporation or association which has or will have a transaction, agreement or any other arrangement in which the authority participates.

- The ability to use his or her position, confidential information or the assets of the authority, to his or her personal advantage.
- Solicited or accepted a gift of any amount under circumstances in which it could reasonably be inferred that the gift was intended to influence him/her, or could reasonably be expected to influence him/her, in the performance of his/her official duties or was intended as a reward for any action on his/her part.
- Any other circumstance that may or appear to make it difficult for the board member or employee to exercise independent judgment and properly exercise his or her official duties.

Outside Employment of Authority's Employees: No employee may engage in outside employment if such employment interferes with his/her ability to properly exercise his or her official duties with the authority.

PROCEDURES

Duty to Disclose:

All material facts related to the conflicts of interest (including the nature of the interest and information about the conflicting transaction) shall be disclosed in good faith and in writing to the Governance Committee and/or the Ethics Officer.

Such written disclosure shall be made part of the official record of the proceedings of the authority.

Determining Whether a Conflict of Interest Exists:

The Governance Committee and/or Ethics Officer shall advise the individual who appears to have a conflict of interest how to proceed. The Governance Committee and/or Ethics Officer should seek guidance from counsel or New York State agencies, such as the Authorities Budget Office, State Inspector General or the Joint Commission on Public Ethics (JCOPE) when dealing with cases where they are unsure of what to do.

Recusal and Abstention:

No board member or employee may participate in any decision or take any official action with respect to any matter requiring the exercise of discretion, including discussing the matter and voting, when he or she knows or has reason to know that the action could confer a direct or indirect financial or material benefit on himself or herself, a relative, or any organization in which he or she is deemed to have an interest. Board members and employees must recuse themselves from deliberations, votes, or internal discussion on matters relating to any organization, entity or

individual where their impartiality in the deliberation or vote might be reasonably questioned, and are prohibited from attempting to influence other board members or employees in the deliberation and voting on the matter.

Records of Conflicts of Interest:

The minutes of the authority's meetings during which a perceived or actual conflict of interest is disclosed or discussed shall reflect the name of the interested person, the nature of the conflict, and a description of how the conflict was resolved.

Reporting of Violations:

Board members and employees should promptly report any violations of this policy to his or her supervisor, or to the public authority's ethics officer, general counsel or human resources representative in accordance with the authority's Whistleblower Policy and Procedures.

Penalties:

Any director or employee that fails to comply with this policy may be penalized in the manner provided for in law, rules or regulations.

Section 3:

Agency Reports

Annual Investment Report:

During 2015-2016, all funds of the Amsterdam Urban Renewal Agency were deposited in FDIC insured accounts at First Niagara Bank. All accounts in excess of \$100,000 were collateralized in compliance with the provisions of Section 10 of General Municipal Law. The Agency had no other investments, and did not invest its funds in any manner other than FDIC insured accounts. As of the close of the fiscal year, the Agency had \$225 in cash or cash equivalents.

Annual Audit:

A copy of the audit is presented on the following pages.

Note: In prior years, the Amsterdam Urban Renewal Agency included grants awarded to the City of Amsterdam and administered by the Urban Renewal Agency in its financial reporting. However, the City and its financial advisors have concluded that these grants are the property of the City of Amsterdam and should appear on the City's financial statements and budget, not on the financial reports of the Urban Renewal Agency. The Urban Renewal Agency is merely administering those grant funds as a agent of the City.

The management letter is presented as part of the audit on the following pages.

REPORT ON THE FINANCIAL STATEMENTS

Independent Auditor's Report

Chairman and Members of the Board of Directors
Amsterdam Urban Renewal Agency
Amsterdam, New York

Report on the Financial Statements

We have audited the accompanying regulatory basis financial statements of the Amsterdam Urban Renewal Agency (Agency) as of and for the year ended June 30, 2016 which collectively comprise the Agency's regulatory basis financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The Board of Directors and other management of the Agency are responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting and reporting prescribed by the Office of the State Comptroller of the State of New York: this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

As more fully described in Note A to the Regulatory Basis Financial Statements, the Agency prepared these financial statements using the regulatory basis of accounting and reporting prescribed by the Office of the State Comptroller of the State of New York (OSC) for submitting annual financial reports to that office and to the Authorities Budget Office of the State of New York (ABO). This regulatory basis of accounting and reporting is a special framework other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between the regulatory basis of accounting and reporting described in Note A and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the regulatory basis financial statements reported are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether

due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Agency's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the significant estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Auditor's Opinion

In our opinion, the accompanying regulatory basis financial statements referred to above present fairly, in all material respects, the financial position of the Amsterdam Urban Renewal Agency as of June 30, 2016, and the results of its operations for the year then ended, in accordance with the regulatory basis of accounting and reporting described in Note A.

Report on Government Auditing Standards

In accordance with *Government Auditing Standards* issued by the Comptroller General, we have also issued our report dated September 23, 2016 on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion of internal control over financial reporting and on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control over financial reporting and compliance.

Intended Use of This Report

As there are differences between financial statements prepared in accordance with accounting principles generally accepted in the United States of America and financial statements prepared in accordance with the regulatory basis of accounting and reporting prescribed by the Office of the State Comptroller of the State of New York (OSC) for reporting to that office and the Authorities Budget Office of the State of New York (ABO), this report is not intended to be used by anyone not understanding those differences. Accordingly, this report is intended solely for the information and use of the Board of Directors and other management of the Amsterdam Urban Renewal Agency and for filing with OSC and ABO, and is not intended for any other purpose.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Amsterdam Urban Renewal Agency (Agency) was established as a governmental agency by Chapter 66 of the Laws of 1965 and Section 610 of the General Municipal Law of the State of New York

The Office of the State Comptroller of the State of New York (OSC) has the basic responsibility to provide oversight to local governments and other applicable governmental agencies in accordance with provisions of the State Constitution and other applicable laws of the State of New York. OSC and the Authorities Budget Office of the State of New York (ABO) have developed a comprehensive on-line reporting system, known as the Public Authorities Reporting Information System (PARIS), for organizations subject to the provisions of applicable laws of the State of New York to report their financial statements and other required information. Accordingly, the Agency is required to prepare its financial statements on this regulatory basis of accounting and reporting prescribed by OSC for submitting PARIS Reports to OSC and ABO.

The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles that are generally accepted in the United States of America. The regulatory basis of accounting and reporting referred to above varies from accounting principles generally accepted in the United States of America primarily because it requires the use of only one fund to report both governmental and business-type activities and does not require the implementation of GASB Statement Nos. 34 and other applicable statements, and does not require reporting the government-wide financial statements of net position and activities in the PARIS report..

In preparing the regulatory basis financial statements in conformity with the regulatory basis of accounting and reporting described above, management may be required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the regulatory basis financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A summary of the significant accounting policies consistently applied in the preparation of the accompanying regulatory basis financial statements follows.

1. Financial Reporting Entity

In evaluating how to define the Agency for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria in the regulatory basis of financial reporting prescribed by the OSC. This criteria generally includes determinations about the Board of Directors' ability to exercise oversight responsibility, the scope of public service provided by the entity, and the existence of special financing relationships. Based upon the application of these criteria, the Agency is no longer considered a component unit of the City of Amsterdam, New York and no other entities are considered to be component units of the Agency.

AMSTERDAM URBAN RENEWAL AGENCY

NOTES TO REGULATORY BASIS FINANCIAL STATEMENTS

Year Ended June 30, 2013

2. *Basis of Presentation, Fund Accounting*

In accordance with the regulatory basis of accounting referred to above, the Agency uses a single fund to report its financial position and the results of its operations for both governmental and business-type activities. A fund is a separate accounting entity with a self-balancing set of accounts.

3. *Measurement Focus and Basis of Accounting*

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus and basis of accounting. Under the regulatory basis of accounting referred to above, the Agency's single fund is required to be accounted for using the measurement focus and basis of accounting as appropriate for proprietary funds. Similar to business enterprises, the Agency is required to utilize a measurement focus based on the flow of economic resources for both its governmental and business-type activities. This would include the capitalization of capital assets, if any, charging depreciation expense, and recording long-term debt, if any, within the single fund, if applicable.

4. *Budgetary Data*

The Agency does not adopt an annual budget for operational purposes. Most operating services are provided by Agency personnel on an as needed basis.

5. *Cash and Cash Equivalents*

Cash and cash equivalents includes the amount on deposit in the Agency's demand deposit account. The Agency did not have any investments as of June 30, 2016.

NOTE B - CASH

The Agency's cash assets consisted of amounts on deposit in the Agency's demand deposit account. The Agency's cash assets at June 30, 2016 were fully covered by the Federal Deposit Insurance Agency (FDIC) limit of \$250,000 per depositor, per bank for demand deposits.

NOTE C - RECEIVABLES

The Agency reports no receivables as of June 30, 2016.

NOTE D - CAPITAL ASSETS

Through the year ended June 30, 2016, the Agency had not acquired any capital assets for use in its governmental or business-type activities. Office space, minor equipment items, and certain other resources were provided to the Agency by the City of Amsterdam, New York. Accordingly, no capital assets are shown in the financial statements.

NOTES TO REGULATORY BASIS FINANCIAL STATEMENTS

Year Ended June 30, 2013

NOTE E - DEBT

As of June 30, 2016, the Agency had no outstanding debt.

NOTE F - COMMITMENTS AND CONTINGENCIES

The Agency has entered into various arrangements with the City of Amsterdam, New York to provide administrative services for some of the City's programs that are funded with various federal and state grants. The Agency serves in a contractual capacity for these arrangements and is not considered a sub-recipient for any of the City's grants.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditor's Report

Chairman and Members of the Board of Directors
Amsterdam Urban Renewal Agency
Amsterdam, New York

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the regulatory basis financial statements of Amsterdam Urban Renewal Agency (Agency), as of and for the fiscal year ended June 30, 2016, and have issued our report thereon dated September 23, 2016.

Internal Control over Financial Reporting

The Board of Directors and other management of the Agency are responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit of the financial statements, we considered the Agency's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the regulatory basis financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

A **deficiency in internal control** exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A **material weakness** is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Agency's financial statements will not be prevented, or detected and corrected, on a timely basis. A **significant deficiency** is a deficiency, or combination of deficiencies, in internal control, that is less severe than a material weakness, yet important enough to merit attention by the Board of Directors who are charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did

not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control and compliance. Accordingly, this communication is not intended for any other purpose.
